Further Controls

All staff should be able to distinguish between drunkenness, paranoia, general illness and to recognise the signs of drug use in particular heat stroke. Should any member of staff see a patron looking unwell, please offer assistance, i.e. ask them if they are feeling ok, offer them a seat, then immediately inform a manager, your security supervisor, and if available a member of the medic team. If a patron refuses help and you feel that they may be a danger to themselves or others, please make a mental note of their whereabouts in the venue and what they look like i.e. the clothes they are wearing so they are easily identifiable to you then immediately inform a manager and your security supervisor.

Signs to be aware of:

- Drunkenness
- Loss of balance/control
- Difficulty in moving and speaking
- Hallucinations and blurred vision
- Nausea/Vomiting
- Over heating
- Confusion and disorientation
- Sleepiness
- Aggressiveness

The majority of deaths associated with dance drugs have been caused by acute hypothermia, more commonly known as heat stroke. Other deaths have been caused by brain damage brought about by excessive water consumption, liver failure and heart failure. It is widely known that many people at dance events will take a combination of drugs such as ecstasy (MDMA, MDA, MDEA), speed (amphetamines), alcohol, cocaine, ketamine, GHB and LSD (acid).

Procedure

The Company will take all reasonable steps to prevent anyone carrying out work-related activities, if they are considered to be unfit or unsafe to undertake the work as a result of drug or alcohol consumption.

It is also important to recognise that many Customers require the Company to undertake random drug and alcohol testing as part of the contractual arrangements. Where random testing is undertaken, this will be done by random selection process and under controlled conditions.

The Company reserves the right to also undertake drugs/substance or alcohol testing where there is reasonable cause to suspect an individual believed to be operating under the influence of such substances found within the workplace. All testing will be carried out by a competent personnel.

If you are suspected to be under the influence of alcohol or drugs during working hours or on Company premises, the Company reserves the right to send you home. This type of incident may be viewed as a gross misconduct offence and dealt with under the Company's Disciplinary Procedure, which could result in dismissal without notice.
